

STEERING COMMITTEE MEETING REPORT NO. 2

March 28, 2019

Eastern York School District
Facility Study
CRA Project No. 3255

On the above date a meeting was held at the Canadochly Elementary School Library for the purpose of reviewing the Elementary Consolidation Study. The below represents the writers understanding of the pertinent issues and items of discussion at the Design Conference.

EXISTING BUILDING TOUR

1. Mr. Hoover conducted a tour of the existing building highlighting some of the existing classroom spaces.
2. The tour was followed up with photographs of crawl spaces and other areas not able to be seen on the tour. The photographs documented the deteriorating conditions of the building.

COSTS TO UPGRADE

1. Estimates of the costs to repair failing systems and the cost to bring the building up to current construction/code standards were reviewed. These numbers were derived from previous facility studies.
2. To bring the building up to current standards, a total project cost of \$12,341,775 was identified.
 - It was noted this cost estimate was prepared in 2014 and would need to be updated to reflect inflation and current construction costs.
 - It was further noted that this was cost to update infrastructure only and it would not address any educational program deficiencies.

21ST CENTURY EDUCATION

1. Dr. Mancuso gave an overview of the current job market, how technology is shaping what we do, and changing skillsets students need to succeed in the future.
2. Dr. Becker gave a presentation on the current trends in 21st education delivery and an outlook going forward.
3. Mr. Cousin gave an overview of how these trends shape educational spaces today, and how these educational spaces should be flexible for future changes in education.

VISUAL LISTENING EXERCISE

1. A visual listening exercise was conducted where images of both traditional and modern 21st Century educational spaces were pinned up on a wall.
2. Steering Committee members placed green dots on images that were likeable and would fit within the educational vision of the district and red dots on images that did not appeal to them and would not be appropriate for EYSD.
3. A discussion was held on various images and reasons why they received the colored dots they received.

Any authorized persons who take exception to any statement in this report shall notify the writer, within five (5) days from the date of receipt of this report, stating in detail the correction or omission. Otherwise, this report shall be considered correct and final.

Sincerely,

Scott Cousin, AIA, LEED AP® | Principal, Senior Project Manager
